

Festival discipline report

Chichester gymnastics club have enrolled 21 new people in their 2023 display team, their team is disbanded at the end of each year with gymnasts then trialling to join the team for the new year.

Dysons has seen its group expand by over a third to 30 children now split between the Amsterdam team going to Gymnaestrada in August and the UK events group.

Chichester will be taking part in UK events this year with both clubs waiting for BG to produce the dates for this year's GymFusions. This year BG have been late to announce these causing some issues with planning for both clubs.

Dysons have been upset by the number of hidden costs involved in taking part in world Gymnaestrada and are unlikely to want to sign up for this again in the future.

Gymnastique Magique in France have seen some dramatic changes to the packages on offer this year but neither Dysons or Chichester planned to attend this year so we will watch this closely to see what they look like when next wishing to attend (2025 for Dysons).

Chichester are waiting for the gymnestrada dates to come out but Dysons is going to avoid this having attended in 2022 and found it to be poorly organised and run.
